HAT DESIGN: ACYO#841

# Built on Innovation. Driven by Demand.

For more than three decades, **Ahead** has helped shape the headwear landscape through a relentless commitment to creativity, quality, and craftsmanship. While trends may come and go, our focus remains the same: delivering headwear that resonates with today's consumer and drives success for our retail partners.

The 2027 **Ahead** Headwear Collection reflects that commitment. From our market-leading AeroSphere® performance fabric and best-selling lightweight cotton styles to fresh prints, distinctive color stories, and industry-leading ornamentation techniques, every piece is thoughtfully designed to stand out at retail and perform on the course and beyond.

Decoration remains at the heart of what sets **Ahead** apart. Our talented design team continues to push the boundaries of logo execution, transforming marks into memorable statements through innovative embroidery, mixed media applications, specialty embellishments, and custom ornamentation techniques. In addition, a majority of the thread used in our decoration programs is made from recycled materials, reinforcing our commitment to more sustainable manufacturing practices.

Just as important as the product itself is the partnership behind it. With industry-leading service, fast turnaround times, dependable lead times, and creative solutions tailored to your needs, **Ahead** remains committed to helping our customers succeed.

From performance-driven innovation to retail-ready styling and exceptional service, the 2027 collection continues the tradition that has defined **Ahead** for more than 30 years

U14SP1 STRATUS
54460-SLATE BLUE

# Weightless by design. Made to matter.

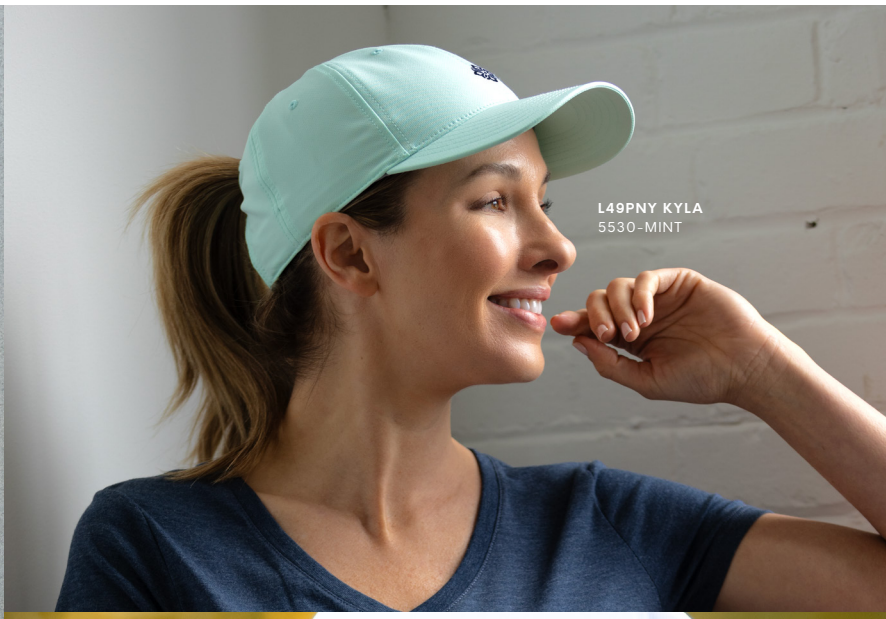

AeroSphere®, Ahead's proprietary four-way stretch performance fabric, continues to be one of the brand's most sought-after innovations. Since its introduction in 2023, AeroSphere® has evolved from a new performance platform into a customer favorite, delivering the comfort, flexibility, and performance today's consumers demand.

Now made with 93% recycled materials, AeroSphere® combines sustainability with exceptional lightweight performance and stretch. Featured across 14 headwear styles – including our top three best sellers – AeroSphere® continues to drive retail success while setting a new benchmark for performance headwear.
